

MERCER

MANUFACTURING FACILITY

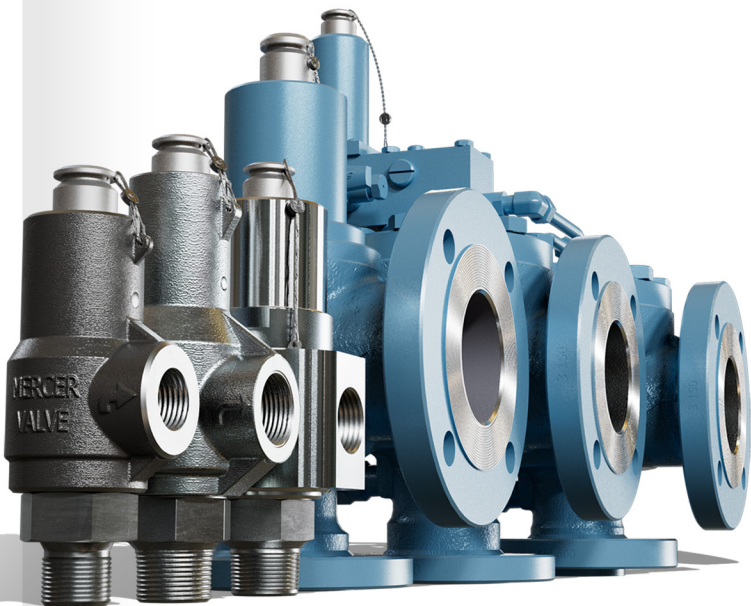

Constant Innovation & Superior Quality

At Mercer Valve Company, Inc.®, our commitment to keeping our industry safe starts with the highest level of attention to detail, testing and innovation. We've grown into the company we are today by providing attentive customer service and exceptional product quality.

We are committed to providing safe, high quality, long-lasting pressure relief valves that require the lowest possible maintenance. It's the kind of dependability that distributors, manufacturers, pipelines, and families can count on every day.

Our Valves

Every Mercer valve features "Auto Seat Technology"® which utilizes low rated springs and a non-rising stem. This allows for a more consistent set pressure, reduces the need for repairs, and significantly extends the lifespan of our valves.

SERVICE & REPAIR

At Mercer Valve Company, Inc.®, our Service and Repair technicians provide safe, quality workmanship. Our "VR" and "T/O" services are performed in accordance with standards set by the National Board of Boiler and Pressure Vessel Inspectors. We go a step beyond by offering competitive prices and timely service for all valve manufacturers.

Our commitment extends to every valve that comes into our care.

Our Services:

- In-shop repair or testing (any manufacturer)
- Complete pressure relief valve repairs and reconditioning
- Access to our Valve Service Engine web portal

Our team will assess your needs and provide you with options so you can make the most informed decision whether a valve needs service, repair, or replacement. **We provide Mercer Valve replacements whenever possible but have the ability to purchase other manufacturer's valves when we do not have a valve that matches the customer's needs.

VALVE SERVICE ENGINE
a service of Mercer Valve Co., Inc.®

Valve Service Engine (VSE) is a pressure relief and flow control device management system that brings your data to life. The VSE Portal is where it all comes together offering test report downloads, spreadsheet downloads, detailed valve service history and much more!
